29 June

MEMORANDUM FOR: Deputy Director (Support)

SUBJECT: Education Allowances

1. Pursuant to your request, we are forwarding proposed headquarters and field Notices concerning the granting of education allowances to Agency staff employees and staff agents assigned overseas in conformance with the recently enacted legislation. Since the proposed Notices are essentially informational in nature, coordination with Agency components other than the Office of the General Counsel has not been deemed necessary.

2. Since the issuance of an Agency regulation on this subject must await receipt of standardized regulations now being prepared by the Department of State, we are unable to finalize a regulation at this time. As soon as the State Department regulations are received, this office will undertake the preparation of an appropriate regulation for coordination and issuance through the Regulations Control Staff. Unfortunately the Allowance Branch of the State Department is unable at this time to give us a firm release date for publication of the standardized regulations.
